Product designer shaped by agencies, enterprises, and startups. Complex systems where the stakes are high and the details matter. Craft on the surface, systems underneath. I take both personally. Before digital, I studied fashion design. The habit stayed the same: craft on the surface, systems underneath, and noticing when something stops feeling right.

Budapest, Hungary (CET)

Work experience

Product Designer
2025 - 2026

Adroit Group

End-to-end product design across SaaS and consumer products: stadium management software, legal app, skincare community platform, and golf hardware integration. Worked side by side with developers throughout. Built AI into workflows for research, copy, and prototyping as a tool that works alongside me, not instead of me, and checked everything it produced.

UX/UI Designer
2024 - 2025

Deloitte Digital

Part of a design team for a large-scale international sports event platform, a multi-product ecosystem with several connected applications. Owned the design of one of them while keeping it consistent with the rest of the ecosystem. Also worked on the brand side, designing logos, illustrations, and other brand elements.

Product Designer
2024 - 2024

Publicis Groupe - Saatchi & Saatchi

Designed a loyalty app for parents, built for a global consumer brand. Covered wireframes, UI, prototyping, icon illustrations, and testing, working closely with a cross-functional product team.

Speaker
2023

UX Budapest

Click to watch

Conference talk on the INTTRA mobility-as-a-service concept.

UI Designer
2022 - 2024

Supercharge

Designed complex apps, websites, early MVPs, and design systems for B2B and B2C clients in data, insurance, and oil & gas. Also created 3D assets and illustrations, covering both the product and the visual side of projects.

UI Designer
2022 - 2022

ACG

UI design for advertising campaigns - web, digital assets, and campaign visuals.

Freelance Designer
2021 - 2022

Websites, logos, and brand identity for small businesses.

Education

AWS AI Practitioner Course
In progress

UX/UI Design
2019 - 2022

KREA Design School

Photography Course
2019

Hudson County Community College New Jersey
